

Toshiba Business Solutions is committed to supporting the nonprofit communities where we do business. Each year, we select organizations to help with donations of cash, Toshiba product and services, and volunteer hours. Nicknamed "The Toshiba Good Will Tour," we are proud to share with you that over the past seven years we have helped raise millions of dollars in conjunction with local community partners. Our goal is to build brand awareness, to communicate our business philosophy of "customers first, profits second," and to demonstrate to our fellow business leaders that Toshiba Business Solutions is an excellent Corporate Citizen.
